REQUEST FOR A CHANGE OF ZONING  
SEPTEMBER 4, 2012 PLAN COMMISSION

**ORDINANCE NUMBER 12-XX**

**AN ORDINANCE OF THE CITY OF WESTFIELD AND WASHINGTON  
TOWNSHIP, HAMILTON COUNTY, INDIANA CONCERNING AMENDMENT TO  
TITLE 16 – LAND USE CONTROLS**

This is a Planned Unit Development District Ordinance to amend the Westfield-Washington Zoning Ordinance of the City of Westfield and Washington Township, Hamilton County, Indiana (the “Zoning Ordinance”), enacted by the City of Westfield pursuant to its authority under the laws of the State of Indiana, Ind. Code § 36-7-4 *et seq.*, as amended.

**WHEREAS**, the City of Westfield, Indiana (the “City”) and the Township of Washington, both of Hamilton County, Indiana are subject to the Zoning Ordinance;

**WHEREAS**, the Westfield-Washington Advisory Plan Commission (the “Commission”) considered a petition (**Docket** \_\_\_\_\_), filed with the Commission requesting an amendment to the Zoning Ordinance and to the Zoning Map;

**WHEREAS**, the Commission forwarded **Docket** \_\_\_\_\_ to the Common Council of the City of Westfield, Hamilton County, Indiana (the "Common Council") with a \_\_\_\_\_ recommendation in accordance with Indiana Code § 36-7-4-608, as required by Indiana Code § 36-7-4-1505;

**WHEREAS**, the Secretary of the Commission certified the action of the Commission to the Common Council on \_\_\_\_\_, 2012; and,

**WHEREAS**, the Common Council is subject to the provisions of the Indiana Code §36-7-4-1507 and Indiana Code § 36-7-4-1512 concerning any action on this request.

**NOW, THEREFORE, BE IT ORDAINED** by the Common Council of the City of Westfield, Hamilton County, Indiana, meeting in regular session, that the Zoning Ordinance and Zoning Map are hereby amended as follows:

**Section 1.     Applicability of Ordinance.**

- 1.1     This PUD District Ordinance (this "Ordinance") applies to the subject real estate more particularly described in **Exhibit A** attached hereto (the “Real Estate”) and shall hereafter be referred to as the "Springmill Corner PUD".
- 1.2     Development of the Real Estate shall be governed by the provisions of the Zoning Ordinance unless specifically modified by the terms of this Ordinance. All provisions and representations of the Zoning Ordinance that conflict with the provisions of this Ordinance are hereby rescinded as applied to the Real Estate and shall be superseded by the terms of this Ordinance.

- 1.3 The underlying zoning district shall be the **LB – Local and Neighborhood Business District** (the "Underlying Zoning District"). Except as modified, revised, supplemented or expressly made inapplicable by this Ordinance, the standards of the Zoning Ordinance applicable to the Underlying Zoning District shall apply.
- 1.4 Section ("WC §") cross-references of this Ordinance shall hereafter refer to the Section as specified and referenced in the Zoning Ordinance.

**Section 2.** **Definitions.** Capitalized terms not otherwise defined in this Ordinance shall have the meanings ascribed to them in the Zoning Ordinance.

- 2.1 Concept Plan: The plan attached hereto and incorporated herein by reference as **Exhibit B.** Exhibit B is a general plan for the development of the Real Estate.
- 2.2 Illustrative Character Exhibit. A general representation of the intended architecture and character for the proposed development of the Real Estate attached hereto as **Exhibit C.**

**Section 3.** **Permitted Uses.** All uses permitted in the Underlying Zoning District shall be permitted; in addition, a Health, Fitness, and Exercise Center shall also be permitted.

**Section 4.** **Development Standards.**

- 4.1 General Regulations. The regulations of *WC § 16.04.050 Business Districts* applicable to the Underlying Zoning District shall apply except as modified herein:
- A. Use of Required Yards. Required front, side and rear yards may include driveways and parking areas, as depicted on the Concept Plan, provided that (i) no portion of the parking area may be located closer than ten (10) feet to any right-of-way line or the Real Estate's perimeter property line; and (ii) the remainder of said required yard shall be maintained as green space free from buildings or structures.
- 4.2 Off-Street Loading and Parking. Shall be provided in accordance with the provisions of the Zoning Ordinance (*WC § 16.04.120*).
- 4.3 Landscaping and Screening. Shall be provided in accordance with the provisions of the Zoning Ordinance (*WC § 16.06*); however, the Real Estate's minimum buffer yards shall be as follows:
- A. 161<sup>st</sup> Street and Spring Mill Road. The Real Estate's north and west property line buffer shall comply with the street frontage landscaping requirements of the Zoning Ordinance (*WC § 16.06.050*).

- B. East Property Line. The Real Estate's east property line shall consist of a minimum thirty (30) foot wide buffer yard. The buffer yard plantings shall consist of those required pursuant to the Zoning Ordinance (WC § 16.06.060).
  - C. South Property Line. The Real Estate's south property line shall consist of a minimum ten (10) foot wide buffer yard. The buffer yard plantings shall consist of those required pursuant to the Zoning Ordinance (WC § 16.06.060).
  - D. Perimeter parking lot landscaping may occupy the same space as required buffer yard areas; provided, however, that in such instances, the required number of plantings for both perimeter parking lot and buffer yard areas shall be provided.
- 4.4 Sign Standards. Shall be provided in accordance with the provisions of the Zoning Ordinance (WC § 16.08).
- 4.5 Lighting. Shall be provided in accordance with the provisions of the Zoning Ordinance (WC § 16.07.010).

**Section 5.** **Architectural and Design Standards.** The regulations of WC § 16.04.165 *Development Plan Review* applicable to the Underlying Zoning District shall apply except for those sections modified and/or enhanced by this Ordinance.

- 5.1 Special Requirements. Buildings shall also comply with WC § 16.04.065(8) *Architectural Design Requirements* of the State Highway 32 Overlay Zone (the "Overlay Zone"). Standards in the Overlay Zone that apply to the "State Highway 32 right-of-way line" shall be applied to the Spring Mill Road and 161<sup>st</sup> Street right-of-way lines adjacent to the Real Estate, with the exception that WC § 16.04.065(8)(g)(i) *Drive-thrus* shall only apply adjacent to the Spring Mill Road right-of-way line.
- 5.2 Illustrative Character Exhibit. The Illustrative Character Exhibit is hereby incorporated to conceptually illustrate the elements and anticipated character of the development and to establish a benchmark for the architecture and design of the Real Estate's buildings. The final building design may vary from the Illustrative Character Exhibit; however, buildings shall be similar in quality to the building(s) shown in the Illustrative Character Exhibit.

ALL OF WHICH IS HEREBY ADOPTED BY THE CITY COUNCIL OF WESTFIELD, HAMILTON COUNTY, INDIANA THIS \_\_\_\_ DAY OF \_\_\_\_\_, 2012.

## EXECUTIVE SUMMARY

### SPRINGMILL CORNER

Cooperstown Partners, LLC (“Cooperstown”) respectfully submits its request for a change of zoning for its proposed \$6.5 million neighborhood center to be known as “Springmill Corner”. The six and a half (6.5) acre site is located on the southeast corner of 161st Street and Springmill Road (see aerial location map at Tab 2). Cooperstown believes that its proposed redevelopment of the site provides an appropriate use at the intersection and that the high quality architecture proposed compliments and is compatible with the surrounding commercial and residential areas (see concept plan at Tab 3 and illustrative exhibits at Tab 4).

Below are highlights of the community’s planning principles that support this development as well as a highlight of the development’s economic benefit to the community.

#### Comprehensive Plan

The Comprehensive Plan includes over one hundred pages of policies and objectives that are both community wide and use specific. In general, the Comprehensive Plan states “[i]t is the desire of the community to see a diverse balance of land uses that proceed with in an efficient and well connected pattern with good land use transitions. The land use patterns should be fiscally sustainable, high quality, and should be accompanied by substantial and permanent open space of one form or another.” (Comprehensive Plan, p. 9)

Although the Comprehensive Plan’s Land Use Concept Map is not parcel specific, it does provide a broad indication of the types of land uses that may be appropriate for various areas within the community. The map generally identifies “Local Commercial” and “Suburban Residential” near the intersection of 161st Street and Spring Mill Road.

The site’s size (6.5 acres +/-), the context of surrounding uses that already define the character of the intersection (e.g., church, commercial, landing strip) and market demand greatly dictate and restrict the types of land uses that would be viable at this site. As such, “Suburban Residential” uses are not a viable land use for the property when taking these factors into consideration. Alternatively, the Comprehensive Plan contemplates “Local Commercial” at this intersection. As proposed, Springmill Corner holistically embrace the goals and objectives of the Comprehensive Plan with its neighborhood scale and limited local business uses. The goals and objectives include, but are not limited to:

- Encouraging infill development contiguous to existing development and promotes the efficient expansion of development relative to infrastructure;
- Encouraging the development of underutilized properties to provide services to residential areas without creating a “hopscotch” pattern of development

elsewhere, avoiding the inefficiencies of sprawl to otherwise provide the services;

- Utilizing properties appropriate for commercial uses by focusing on a key node/intersection that compliments the community's arterials without encroaching into residential areas;
- Reducing automobile miles of residents to frequent local businesses that provide goods and services to residents on a day-to-day basis (e.g., banks, drug stores);
- Enhancing safety and vitality of the community by providing for improvements to adjacent roads, creating new jobs and offering goods and services that creates and contributes to a sustainable community;
- Improving the fiscal benefits to the community and
- Encouraging high quality and desirable architectural design.

#### Highlight of Key Economic Benefits to the Community<sup>1</sup>:

- \$6.5 million investment (estimated benefit of \$442,000 annually in property taxes);
- \$724,000 generated annually in direct and indirect sales and income tax revenues (estimated \$44,000 generated annually in local income tax revenues);
- Generation of new fees (e.g., water, sewer, and road);
- Creation of immediate construction jobs (\$5.3 million is the total estimated construction impact of the development, including the creation of 50 jobs); and
- Creation of permanent jobs (estimated to directly create 90 jobs with a payroll of \$4.5 million - which would result in a total direct or indirect personal income generated by the development of \$6.2 million, creating the potential for local expenditures by employees and their families).

If approved, then Cooperstown intends to begin construction in the next year.  
Thank you for your consideration.

<sup>1</sup> As estimated by an Economic and Revenue Impacts analysis prepared by Applied Economics.

OPTION 2

**ORDINANCE NUMBER 12-XX**

**AN ORDINANCE OF THE CITY OF WESTFIELD AND WASHINGTON  
TOWNSHIP, HAMILTON COUNTY, INDIANA CONCERNING AMENDMENT TO  
TITLE 16 – LAND USE CONTROLS**

This is a Planned Unit Development District Ordinance to amend the Westfield-Washington Zoning Ordinance of the City of Westfield and Washington Township, Hamilton County, Indiana (the “Zoning Ordinance”), enacted by the City of Westfield pursuant to its authority under the laws of the State of Indiana, Ind. Code § 36-7-4 *et seq.*, as amended.

**WHEREAS**, the City of Westfield, Indiana (the “City”) and the Township of Washington, both of Hamilton County, Indiana are subject to the Zoning Ordinance;

**WHEREAS**, the Westfield-Washington Advisory Plan Commission (the “Commission”) considered a petition (**Docket** \_\_\_\_\_), filed with the Commission requesting an amendment to the Zoning Ordinance and to the Zoning Map;

**WHEREAS**, the Commission forwarded **Docket** \_\_\_\_\_ to the Common Council of the City of Westfield, Hamilton County, Indiana (the "Common Council") with a \_\_\_\_\_ recommendation in accordance with Indiana Code § 36-7-4-608, as required by Indiana Code § 36-7-4-1505;

**WHEREAS**, the Secretary of the Commission certified the action of the Commission to the Common Council on \_\_\_\_\_, 2012; and,

**WHEREAS**, the Common Council is subject to the provisions of the Indiana Code §36-7-4-1507 and Indiana Code § 36-7-4-1512 concerning any action on this request.

**NOW, THEREFORE, BE IT ORDAINED** by the Common Council of the City of Westfield, Hamilton County, Indiana, meeting in regular session, that the Zoning Ordinance and Zoning Map are hereby amended as follows:

**Section 1.     Applicability of Ordinance.**

- 1.1     This PUD District Ordinance (this "Ordinance") applies to the subject real estate more particularly described in **Exhibit A** attached hereto (the “Real Estate”) and shall hereafter be referred to as the "Springmill Corner PUD".
- 1.2     Development of the Real Estate shall be governed by the provisions of the Zoning Ordinance unless specifically modified by the terms of this Ordinance. All provisions and representations of the Zoning Ordinance that conflict with the provisions of this Ordinance are hereby rescinded as applied to the Real Estate and shall be superseded by the terms of this Ordinance.

the eastbound left-turn lane and at least 40 feet of storage for the westbound left-turn lane to the proposed development.

Additionally, a proposed right-in/right-out access drive and a proposed full access drive will be located on Springmill Road, approximately 260 feet and 450 feet, respectively, south of 161<sup>st</sup> Street. These access drives will be stop controlled intersections, with the access drives stopping for Springmill Road. It is recommended that the existing northbound right-turn lane to the intersection of 161<sup>st</sup> Street and Springmill Road be extended to the south along Springmill Road to just south of the proposed full access drive. It is also recommended that a back-to-back left-turn lane be constructed along Springmill Road that maintains at least 170 feet of storage for the existing northbound left-turn lane at 161<sup>st</sup> Street and provides at least 50 feet of storage for the southbound left-turn lane to the proposed full access drive.

In summary, there are no improvements required at the intersection of 161<sup>st</sup> Street and Springmill Road. The recommended improvements along 161<sup>st</sup> Street and Springmill Road to serve the access drives will allow vehicles to enter the proposed development site safely and efficiently without impeding through traffic.

- 1.3 The underlying zoning district shall be the **LB – Local and Neighborhood Business District** (the "Underlying Zoning District"). Except as modified, revised, supplemented or expressly made inapplicable by this Ordinance, the standards of the Zoning Ordinance applicable to the Underlying Zoning District shall apply.
- 1.4 Section ("WC §") cross-references of this Ordinance shall hereafter refer to the Section as specified and referenced in the Zoning Ordinance.

**Section 2.** **Definitions.** Capitalized terms not otherwise defined in this Ordinance shall have the meanings ascribed to them in the Zoning Ordinance.

- 2.1 Concept Plan: The plan attached hereto and incorporated herein by reference as **Exhibit B.** Exhibit B is a general plan for the development of the Real Estate.
- 2.2 Illustrative Character Exhibit. A general representation of the intended architecture and character for the proposed development of the Real Estate attached hereto as **Exhibit C.**

**Section 3.** **Permitted Uses.** All uses permitted in the Underlying Zoning District shall be permitted; in addition, a Health, Fitness, and Exercise Center shall also be permitted.

**Section 4.** **Development Standards.**

- 4.1 General Regulations. The regulations of *WC § 16.04.050 Business Districts* applicable to the Underlying Zoning District shall apply except as modified herein:
- A. Use of Required Yards. Required front, side and rear yards may include driveways and parking areas, as depicted on the Concept Plan, provided that (i) no portion of the parking area may be located closer than ten (10) feet to any right-of-way line or the Real Estate's perimeter property line; and (ii) the remainder of said required yard shall be maintained as green space free from buildings or structures.
- 4.2 Off-Street Loading and Parking. Shall be provided in accordance with the provisions of the Zoning Ordinance (*WC § 16.04.120*).
- 4.3 Landscaping and Screening. Shall be provided in accordance with the provisions of the Zoning Ordinance (*WC § 16.06*); however, the Real Estate's minimum buffer yards shall be as follows:
- A. 161<sup>st</sup> Street and Spring Mill Road. The Real Estate's north and west property line buffer shall comply with the street frontage landscaping requirements of the Zoning Ordinance (*WC § 16.06.050*).

- B. East Property Line. The Real Estate's east property line shall consist of a minimum thirty (30) foot wide buffer yard. The buffer yard plantings shall consist of those required pursuant to the Zoning Ordinance (WC § 16.06.060).
  - C. South Property Line. The Real Estate's south property line shall consist of a minimum ten (10) foot wide buffer yard. The buffer yard plantings shall consist of those required pursuant to the Zoning Ordinance (WC § 16.06.060).
  - D. Perimeter parking lot landscaping may occupy the same space as required buffer yard areas; provided, however, that in such instances, the required number of plantings for both perimeter parking lot and buffer yard areas shall be provided.
- 4.4 Sign Standards. Shall be provided in accordance with the provisions of the Zoning Ordinance (WC § 16.08).
- 4.5 Lighting. Shall be provided in accordance with the provisions of the Zoning Ordinance (WC § 16.07.010).

**Section 5.** **Architectural and Design Standards.** The regulations of WC § 16.04.165 *Development Plan Review* applicable to the Underlying Zoning District shall apply except for those sections modified and/or enhanced by this Ordinance.

- 5.1 Special Requirements. Buildings shall also comply with WC § 16.04.065(8) *Architectural Design Requirements* of the State Highway 32 Overlay Zone (the "Overlay Zone"). Standards in the Overlay Zone that apply to the "State Highway 32 right-of-way line" shall be applied to the Spring Mill Road and 161<sup>st</sup> Street right-of-way lines adjacent to the Real Estate, with the exception that WC § 16.04.065(8)(g)(i) *Drive-thrus* shall only apply adjacent to the Spring Mill Road right-of-way line.
- 5.2 Illustrative Character Exhibit. The Illustrative Character Exhibit is hereby incorporated to conceptually illustrate the elements and anticipated character of the development and to establish a benchmark for the architecture and design of the Real Estate's buildings. The final building design may vary from the Illustrative Character Exhibit; however, buildings shall be similar in quality to the building(s) shown in the Illustrative Character Exhibit.

ALL OF WHICH IS HEREBY ADOPTED BY THE CITY COUNCIL OF WESTFIELD, HAMILTON COUNTY, INDIANA THIS \_\_\_\_ DAY OF \_\_\_\_\_, 2012.

## Traffic Impact Analysis Summary

### Southeast corner of 161<sup>st</sup> Street & Springmill Road

A&F Engineering conducted a Traffic Impact Analysis, on behalf of Peacock Companies, for a proposed commercial development, Springmill Corner, to be located on the southeast corner of the intersection of 161<sup>st</sup> Street and Springmill Road in Westfield, Indiana. The study investigated the existing conditions of the study area and how the existing roadway system in the study area will be impacted by the traffic generated from the proposed development.

Analysis results show that the proposed development will have very little impact on the intersection of 161<sup>st</sup> Street and Springmill Road. This intersection currently operates at level of service (LOS) B during both the AM and PM Peak Hour and will remain at LOS B during both the AM and PM Peak Hour when traffic from the proposed development is added to the intersection. When compared to the existing conditions, the traffic added to this intersection from the proposed development increases the delay by less than one (1) second per vehicle. The development traffic added to this intersection increases the total volume of traffic entering the intersection by approximately 3% during both the AM and PM Peak Hour. Based on the results from the analysis, no major geometric improvements at the intersection of 161<sup>st</sup> Street and Springmill Road are necessary to mitigate the incremental increase in traffic due to the proposed development.

In order to serve the site, a proposed right-in/right-out access drive and a proposed full access drive will be located on 161<sup>st</sup> Street, approximately 285 feet and 515 feet, respectively, east of Springmill Road. These access drives will be stop controlled intersections, with the access drives stopping for 161<sup>st</sup> Street. It is recommended that an eastbound right-turn lane be constructed along 161<sup>st</sup> Street, extending west from the proposed full access drive to the intersection of 161<sup>st</sup> Street and Springmill Road. It is recommended that the non-mountable median barrier along the westbound approach to the intersection of 161<sup>st</sup> Street and Springmill Road be extended approximately 95 feet to prevent drivers from making illegal left-turns into and out of the proposed right-in/right-out access drive on 161<sup>st</sup> Street. In addition, a back-to-back left-turn lane should be constructed along 161<sup>st</sup> Street by splitting the existing eastbound left-turn lane serving the commercial center to the north to provide at least 50 feet of storage for

the eastbound left-turn lane and at least 40 feet of storage for the westbound left-turn lane to the proposed development.

Additionally, a proposed right-in/right-out access drive and a proposed full access drive will be located on Springmill Road, approximately 260 feet and 450 feet, respectively, south of 161<sup>st</sup> Street. These access drives will be stop controlled intersections, with the access drives stopping for Springmill Road. It is recommended that the existing northbound right-turn lane to the intersection of 161<sup>st</sup> Street and Springmill Road be extended to the south along Springmill Road to just south of the proposed full access drive. It is also recommended that a back-to-back left-turn lane be constructed along Springmill Road that maintains at least 170 feet of storage for the existing northbound left-turn lane at 161<sup>st</sup> Street and provides at least 50 feet of storage for the southbound left-turn lane to the proposed full access drive.

In summary, there are no improvements required at the intersection of 161<sup>st</sup> Street and Springmill Road. The recommended improvements along 161<sup>st</sup> Street and Springmill Road to serve the access drives will allow vehicles to enter the proposed development site safely and efficiently without impeding through traffic.

**ECONOMIC AND REVENUE IMPACTS  
OF 161<sup>ST</sup> AND SPRING MILL SEC DEVELOPMENT  
ON THE CITY OF WESTFIELD**

## 1.0 INTRODUCTION

---

Applied Economics was retained by the Peacock Companies to perform an economic impact analysis of the 161<sup>st</sup> and Spring Mill SEC development, a proposed commercial project in Westfield, Indiana. This analysis is intended to provide a framework for understanding the economic and revenue impacts the project would generate during construction and on an on-going basis.

### 1.1 Project Description

The development, located on a 7 acre site at the southeast corner of 161<sup>st</sup> Street and Spring Mill Road, would include a 14,175 square foot drug store, two banks totaling 9,000 square feet and 7,200 square feet of medical office space (Figure 1). The businesses in the development would employ an estimated 90 people with a payroll of \$4.4 million, assuming a long term occupancy rate of 95 percent for medical office tenants and 100 percent for the drug store and banks. Construction costs, including site work, are estimated at \$3.9 million, plus land costs of approximately \$2.5 million. This development is an excellent use for this key commercial corner and provides retail and services to an area that is currently underserved.

**FIGURE 1**  
**DEVELOPMENT ASSUMPTIONS**

Assumptions	Square Feet	Estimated Employment	Occupancy	Taxable Sales PSF
Medical Office	7,200	29	95%	\$0
Banks	9,000	26	100%	\$0
Drug Store	14,175	38	100%	\$400

## 2.0 IMPACT SUMMARY

---

The construction of this commercial center in Westfield would provide sizeable economic and revenue benefits to the City, as described below. These benefits are supported by the mix of uses that have been proposed, including not only retail but also office and services, allowing this site to develop to its full potential.

- About 35 direct construction jobs and 15 additional indirect jobs would be supported in the City of Westfield during the construction phase, based on construction expenditures of \$3.9 million. The total construction impact is estimated at \$5.3 million.
- Once completed, the project would generate an annual economic impact of \$18.9 million locally.
- The drug store, banks and office space in the development would directly employ about 90 people. The development could also support an additional 44 indirect jobs at *other local businesses* in Westfield. These indirect jobs are the result of business to business purchases made by the tenants, as well as local spending by employees.
- About \$4.5 million in direct personal income, or payroll, and \$6.2 million in total direct and indirect personal income would be generated by the development, creating the potential for local expenditures by employees and their families.
- In terms of local tax revenues, 161<sup>st</sup> and Spring Mill SEC development would directly and indirectly generate approximately \$422,000 in annual property tax revenues and \$44,000 in local income tax revenues. Indirect revenues to the city include taxes paid by employees and other supported local businesses. In addition to local revenues, the project would also generate \$724,000 per year in direct and indirect sales and income tax revenues to the state.

The 161<sup>st</sup> and Spring Mill SEC development would create new revenues for the City, as well as approximately 140 new jobs, and provide additional services for local residents. Other local businesses could benefit as well from the economic multiplier effects. This development is an effective use of this site for commercial development that will not only serve the community but also support the local economy.

### 3.0 ECONOMIC IMPACT ANALYSIS

The economic benefits resulting from 161<sup>st</sup> and Spring Mill SEC Development in the City of Westfield include both the one-time construction impacts and on-going operations impacts. These impacts are quantified in terms of direct and indirect jobs, personal income and business activity, or output that would be generated by the project. Indirect impacts are the result of the multiplier effect and capture supported supplier and consumer businesses and employees in the City of Westfield that would benefit from the new development. There are additional positive impacts that would occur in other parts of the county and metro area that are not captured here.

#### 3.1 Construction Impacts

Total personal income, or earnings, from construction and the total increase in economic activity from new construction expenditures are shown in Figure 2. These impacts are projected to occur during the construction phase of the project. The project itself would result in direct construction expenditures, excluding land costs, of about \$3.9 million. The multiplier effects of this construction spending on the City would result in a total increase in economic activity of about \$5.3 million. The approximately 50 direct and indirect jobs created by this construction project would result in more than \$2.1 million in personal income in the City of Westfield during the next year.

**FIGURE 2**  
**CONSTRUCTION IMPACTS**

	Direct Impacts			Total Impacts		
	Expenditures	Jobs	Personal Income	Output	Jobs	Personal Income
Site Work	\$1,606,500	12	\$631,607	\$2,120,848	17	\$810,545
Building Costs	\$1,282,500	10	\$504,224	\$1,693,114	13	\$647,074
Soft Costs	\$1,060,350	13	\$510,141	\$1,491,018	17	\$662,217
<b>Total</b>	<b>\$3,949,350</b>	<b>35</b>	<b>\$1,645,972</b>	<b>\$5,304,980</b>	<b>47</b>	<b>\$2,119,836</b>

#### 3.2 Operations Impacts

The total increase in economic activity from on-going operations of the businesses in the 161<sup>st</sup> and Spring Mill SEC Development are shown in Figure 3. These impacts are projected to occur on an annual basis once the development is complete. The development will directly support about 90 jobs. This translates into about \$4.5 million in direct personal income, or payroll, and \$13.6 million in increased direct output or business activity from the development each year. On average, the income from these jobs is estimated at about \$49,200 per employee. Wages from retail jobs tend to be lower, but banking and medical office uses tend to generate higher wage jobs.

**FIGURE 3**  
**ANNUAL ECONOMIC IMPACTS BY COMPONENT**

Year	Direct			Total		
	Output	Jobs	Pers Income	Output	Jobs	Pers Income
Medical Office	\$3,253,555	29	\$1,958,278	\$4,506,924	40	\$2,378,582
Banks	\$7,655,467	26	\$1,177,511	\$10,708,983	50	\$2,105,808
Drug Store	\$2,693,205	38	\$1,401,481	\$3,654,293	46	\$1,711,304
Total	\$13,602,227	92	\$4,537,271	\$18,870,200	137	\$6,195,693

The multiplier effect of this increase in business activity in the City will result in a total annual output impact of \$18.9 million at build out. The approximately 140 direct and indirect jobs supported by the development will result in about \$6.2 million in personal income in Westfield each year.

The new jobs generated by this project would also support a total local population of about 230 people in Hamilton County, and 70 people in Westfield specifically, based on local commuting patterns. Some of these workers and their families will be new to the area. Supported population includes families of direct employees, as well as families of employees at related supplier and consumer businesses. This estimate assumes that about 66 percent of the employees will live and work in Hamilton County and 21 percent will live and work in Westfield, based on local commuting data.

The differences between direct and total impacts are called multiplier effects. Multiplier effects are a way of representing the larger economic effects on the local economy. The multiplier effects translate an increase in output or business sales/production into a corresponding increase in jobs and personal income. The total increase in output includes the impacts on other local supplier and consumer businesses. In essence, the multiplier effect represents the recycling of local spending. This process creates new business opportunities.

The multipliers used in this analysis are from IMPLAN, a national vendor of economic impact software, and are specific to the City of Westfield. Industry specific multipliers were used for the three types of businesses in the development and for commercial construction. The average output multiplier for this commercial development is 1.39. This means that for every \$1 million of annual output created by the drug store, bank and office tenants, an additional \$390,000 in economic activity and 4 local jobs are supported at other local businesses. On average, the income from these indirect jobs is estimated at about \$37,500 per employee. Additional indirect jobs and payroll would be supported outside the City.

### 3.3 Revenue Impacts

In addition to supporting jobs, income and output at related businesses in the area through multiplier effects, the project would also generate local tax revenues (Figure 4 and 5). All total, the project could generate about \$466,000 in new direct and indirect local tax revenues to the City of Westfield, Washington Township and Hamilton County.

Increases in direct property tax revenues generated by the development are estimated at \$193,000 per year. This includes local property tax revenues to the city, township and school district. Direct property tax revenues are based on the value of new construction as well as the land value. There would also be state sales taxes generated by retail sales from the drug store that are estimated at \$397,000 per year.

**FIGURE 4  
ANNUAL STATE AND LOCAL REVENUE IMPACTS**

	Local Taxes		State Taxes	
	Property	COIT	Sales	Personal Income
Direct Revenues	\$192,884	na	\$396,900	na
Indirect Revenues	\$229,614	\$43,523	\$104,010	\$223,497
Total	\$422,498	\$43,523	\$500,910	\$223,497

**FIGURE 5  
ANNUAL STATE AND LOCAL TAX REVENUES\*  
(millions of dollars)**

\*Includes direct and indirect revenue

Along with the direct taxes generated by the development, there would also be indirect taxes generated by supported employees and their families living in the county. Using the results from the economic impact analysis, it is possible to estimate indirect tax impacts. Indirect local income tax revenues of \$44,000 per year include local income taxes from direct employees and indirect employees at supported local businesses. Indirect income taxes are calculated by multiplying total personal income times a 66 percent local residency rate times the one percent local income tax rate. There would be additional personal income taxes to the state that are estimated at \$223,000 per year.

Indirect property tax revenues were based on assessed value per capita of residential property in Hamilton County times the supported population living in the county, times the local property tax rate. Altogether, indirect property taxes are estimated at about \$230,000 per year.

There would also be indirect state sales tax revenues based on household spending by supported employees. Indirect state sales taxes are estimated at \$104,000 per year and are based on total personal income from the economic impact times 31 percent (the share of household expenditures on items subject to sales tax based on the Census Consumer Expenditure Survey) times the state sales tax rate.

### **3.4 Summary**

The proposed mix of uses for the 161<sup>st</sup> and Spring Mill SEC Development as described in this analysis could create both revenue and economic benefits for the City of Westfield. Although this is not a large project, the economic benefits are significant in proportion to the size of the development. The economic benefits include the impacts of the construction phase and the on-going impacts of operations. The development would create local jobs and payroll in Westfield and it would create additional demand at other local businesses based on supplier purchases and employee spending. It would also provide new services to local residents in an underserved area of the city.
